DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1/25/06 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 27-30, 32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claim 27 recites the limitation "said second polygonal inner perimeter portion" in line 7 of the claim. There is insufficient antecedent basis for this limitation in the claim.

Claim 30 states the first surface is normal to the semi-circular portions. The first surfaces are tangential in orientation to the circle formed by the semi-circular surfaces. It is unclear what the scope of the claim is.

Claim 32 states that surfaces are non-parallel to the longitudinal axis of the collar. The axis has not been previously defined.

Art Unit: 3683

Claim Rejections - 35 USC § 102

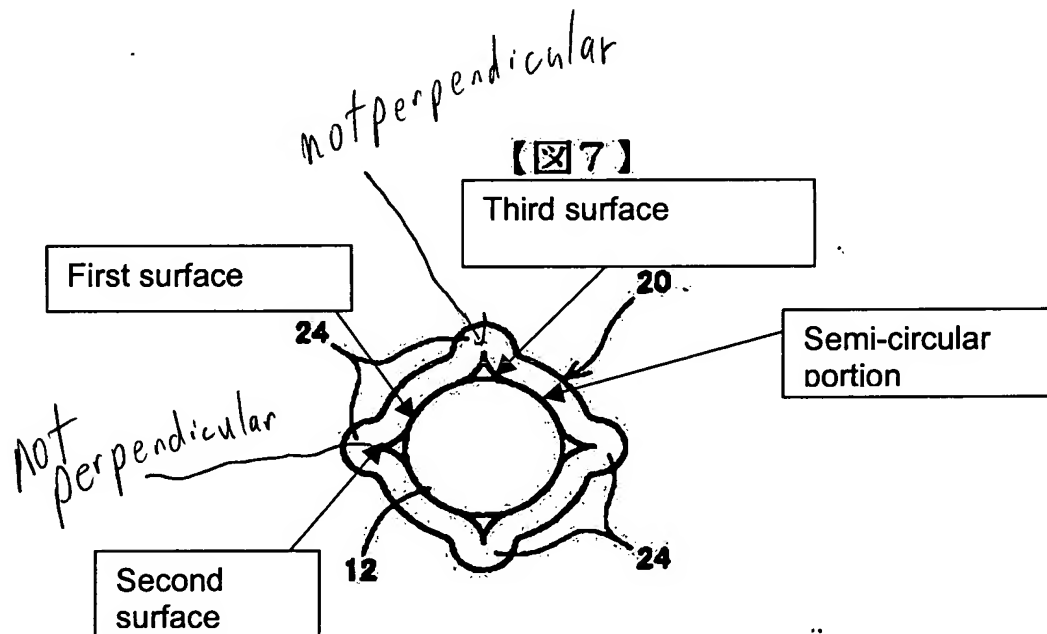

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 27-37 are rejected under 35 U.S.C. 102(b) as being anticipated by JP2001301437.

See attached figure 7

It is unclear to the examiner if the applicant believe the claim read upon figure 5 of the instant application. If the applicant maintains that the claims read upon figure 5, the following rejection is made:

Art Unit: 3683

7. Claims 27-37 rejected under 35 U.S.C. 102(b) as being anticipated by JP2001301437.

See figures 4 and 6. Note polygonal portions 20b and semi-circular portions 20a

Response to Arguments

8. Applicant's arguments with respect to claims 27-37 have been considered but are moot in view of the new ground(s) of rejection.
